HTML AND CSS PROJECT

Project Name: ShopEasy - Online Shopping Website

1. INTRODUCTION

ShopEasy is a simple online shopping website developed using HTML and CSS. It displays products and provides navigation links for users.

2. TECHNOLOGIES USED

- HTML
- CSS
- Visual Studio Code
- Google Chrome

3. HTML CODE

```
<!DOCTYPE html>
<html>
<head>
  <title>Online Shopping Website</title>
  <link rel="stylesheet" href="style.css">
</head>
<body>

  <!-- Navigation Bar -->
  <header>
    <h1>ShopEasy</h1>
    <nav>
```

```
      <a href="#">Home</a>
      <a href="#">Electronics</a>
      <a href="#">Fashion</a>
      <a href="#">Contact</a>
      <a href="#">Cart 🛒</a>
    </nav>
</header>

<!-- Promotional Banner -->
<section class="banner">
    <h2>Big Shopping Sale!</h2>
    <p>Get up to 50% OFF on selected products</p>
    <button>Shop Now</button>
</section>

<!-- Product Categories -->
<section class="categories">
    <h2>Product Categories</h2>
    <p>Mobiles | Clothes | Shoes | Accessories</p>
</section>

<!-- Products -->
<section class="products">
    <h2>Our Products</h2>

    <div class="product-container">

      <div class="product">
        <img src="headphones.jpg"height="200" width="200"
          alt="Headphones">
        <h3>Headphones</h3>
        <p>Good quality sound</p>
        <p class="price">₹999</p>
        <p class="discount">20% OFF</p>
        <p>Rating: ⭐ ⭐ ⭐ ⭐</p>
        <button>Add to Cart</button>
      </div>
```

```
      <div class="product">
        <img src="smart phone.jpg"height="200" width="200"
          alt="Smartphone">
        <h3>Smartphone</h3>
        <p>Latest model mobile</p>
        <p class="price">₹12,999</p>
        <p class="discount">15% OFF</p>
        <p>Rating: ⭐ ⭐ ⭐ ⭐ ⭐ </p>
        <button>Add to Cart</button>
      </div>

      <div class="product">
        <img src="shoes.jpg"height="200"width="200"
          alt="Shoes">
        <h3>Sports Shoes</h3>
        <p>Comfortable footwear</p>
        <p class="price">₹1,499</p>
        <p class="discount">25% OFF</p>
        <p>Rating: ⭐ ⭐ ⭐ ⭐ </p>
        <button>Add to Cart</button>
      </div>

      <div class="product">
        <img src="watch.jpg"height="200" width="200"
          alt="Watch">
        <h3>Smart Watch</h3>
        <p>Stylish digital watch</p>
        <p class="price">₹1,999</p>
        <p class="discount">10% OFF</p>
        <p>Rating: ⭐ ⭐ ⭐ ⭐ ⭐ </p>
        <button>Add to Cart</button>
      </div>

    </div>
  </section>
```

```
  <!-- Footer -->
  <footer>
    <p>© 2026 ShopEasy. All Rights Reserved.</p>
  </footer>

</body>
</html>
```

4. CSS CODE

```
/* Basic Page Style */
body {
  font-family: Arial, sans-serif;
  margin: 0;
  background-color: #f4f4f4;
}

/* Navigation Bar */
header {
  background-color: #232f3e;
  color: white;
  padding: 15px;
  display: flex;
  justify-content: space-between;
  align-items: center;
}

header h1 {
  margin: 0;
  color: orange;
}

nav a {
  color: white;
  text-decoration: none;
  margin: 10px;
}
```

```
/* Promotional Banner */
.banner {
  background-color: #ffcc80;
  text-align: center;
  padding: 40px;
}

.banner h2 {
  font-size: 30px;
}

button {
  background-color: #ff9900;
  border: none;
  padding: 10px 20px;
  cursor: pointer;
  border-radius: 5px;
}

button:hover {
  background-color: #e68a00;
}

/* Categories */
.categories {
  text-align: center;
  padding: 20px;
}

/* Product Section */
.products {
  padding: 20px;
  text-align: center;
}

.product-container {
  display: grid;
```

```
    grid-template-columns: repeat(4, 1fr);
    gap: 20px;
}

/* Individual Product */
.product {
    background-color: white;
    padding: 15px;
    border-radius: 8px;
    box-shadow: 0 2px 5px gray;
}

.product img {
    width: 100%;
    max-width: 200px;
    height: 150px;
    object-fit: contain;
}

.price {
    color: green;
    font-weight: bold;
    font-size: 20px;
}

.discount {
    color: red;
    font-weight: bold;
}

.product button {
    width: 100%;
}

/* Footer */
footer {
    background-color: #232f3e;
    color: white;
```

```
  text-align: center;
  padding: 15px;
  margin-top: 20px;
}

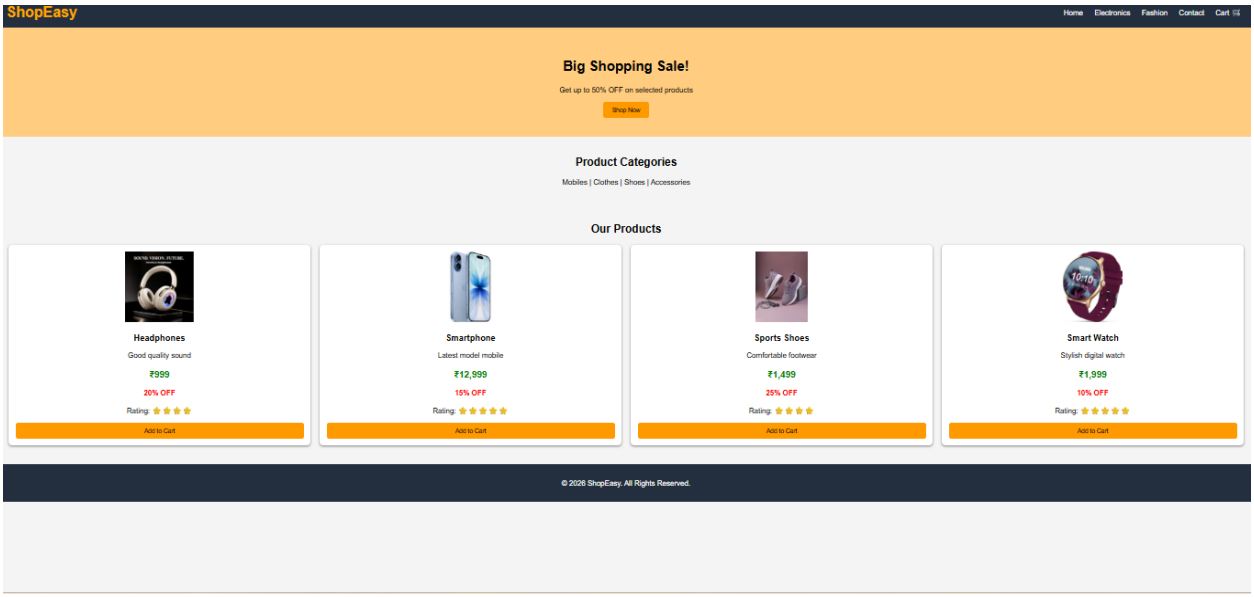

/* Responsive Design */
@media (max-width: 768px) {
  .product-container {
    grid-template-columns: repeat(2, 1fr);
  }

  header {
    flex-direction: column;
    gap: 15px;
  }
}

@media (max-width: 480px) {
  .product-container {
    grid-template-columns: 1fr;
  }

  nav a {
    margin: 5px;
  }
}
```

5. OUTPUT SCREENSHOT

6. EXPLANATION

HTML is used to create the structure of the website.

CSS is used to style the website with colors, fonts, spacing, and layout.

The navigation bar helps users move between different sections. The output is displayed in a web browser.

7. CONCLUSION

This project helped me learn the basics of HTML and CSS and how to create a simple website.

PROJECT 2: FOOD CAFE WEBSITE

1. INTRODUCTION

Food Cafe is a simple website created using HTML and CSS. It displays food items, menu details, prices, and contact information. This website helps users view the available food items.

2. OBJECTIVE

The main objective of this project is to design an attractive and user-friendly food cafe website using basic HTML and CSS.

3. TECHNOLOGIES USED

- HTML
- CSS
- Visual Studio Code
- Google Chrome

4. HTML CODE

```
<!DOCTYPE html>
<html lang="en">
<head>
  <meta charset="UTF-8">
  <meta name="viewport" content="width=device-width, initial-scale=1.0">
```

```
  <title>Foodie Cafe</title>
  <link rel="stylesheet" href="style2.css">
</head>
<body>

  <header>
    <h1>Foodie Cafe</h1>
    <nav>
      <a href="#home">Home</a>
      <a href="#menu">Menu</a>
      <a href="#about">About</a>
      <a href="#contact">Contact</a>
    </nav>
  </header>

  <section id="home" class="hero">
    <h2>Welcome to Foodie Cafe</h2>
    <p>Delicious Food, Happy Moments!</p>
    <a href="#menu" class="btn">View Menu</a>
  </section>

  <section id="menu">
    <h2>Our Menu</h2>

    <div class="food-container">
      <div class="food">
        <img src="pizza.jpg"height="200"width="200">
        <h3>Pizza</h3>
        <p>₹199</p>
      </div>

      <div class="food">
        <img src="burger.jpg" height="200"width="200" alt="Burger">
        <h3>Burger</h3>
        <p>₹129</p>
      </div>
```

HTML is used to create the structure of the Food Cafe website.

CSS is used to add colors, fonts, backgrounds, spacing, and styles.

The header displays the cafe name and navigation links. The menu section displays food items and their prices. The contact section provides cafe contact information.

The website output is displayed in Google Chrome.

8. CONCLUSION

This project helped me understand the basics of HTML and CSS. I learned how to design a simple and attractive Food Cafe website

PROJECT 3: GAMING E-SPORTS COMMUNITY WEBSITE

1. INTRODUCTION

Gaming E-Sports Community is a website created using HTML and CSS. It provides information about online games, e-sports tournaments, gaming teams, and gaming events. It helps gaming lovers connect with the gaming community.

2. OBJECTIVE

The main objective of this project is to design an attractive gaming website where users can view gaming events, tournaments, and team information.

3. TECHNOLOGIES USED

- HTML
- CSS
- Visual Studio Code
- Google Chrome

4. HTML CODE

```
<!DOCTYPE html>
<html lang="en">
<head>
  <meta charset="UTF-8">
  <meta name="viewport" content="width=device-width, initial-scale=1.0">
```

```
.hero h2 {
  font-size: 32px;
  margin-bottom: 10px;
}

.hero p {
  margin-bottom: 25px;
}

/* Button */
.btn {
  background-color: #00f5ff;
  color: #10101c;
  padding: 12px 20px;
  text-decoration: none;
  border-radius: 5px;
  font-weight: bold;
}

.btn:hover {
  background-color: white;
}

/* Sections */
section {
```

```
    padding: 35px 20px;
    text-align: center;
}

section h2 {
    color: #00f5ff;
    margin-bottom: 25px;
}

/* Game and Team Cards */
.container {
    display: flex;
    justify-content: center;
    flex-wrap: wrap;
    gap: 20px;
}

.card {
    background-color: #1c1c30;
    padding: 25px;
    margin: 10px auto;
    border-radius: 10px;
    width: 280px;
    max-width: 100%;
    border: 1px solid #333355;
```

```
    transition: transform 0.3s;
}

.card h3 {
    color: #ffcc00;
    margin-bottom: 10px;
}

.card:hover {
    transform: translateY(-5px);
    border-color: #00f5ff;
}

/* Tables */
table {
    width: 90%;
    max-width: 800px;
    margin: auto;
    border-collapse: collapse;
}

th, td {
    border: 1px solid #444466;
    padding: 12px;
}
```

```
th {
  background-color: #6a0dad;
  color: white;
}

tr:nth-child(even) {
  background-color: #1c1c30;
}

tr:hover {
  background-color: #292947;
}

/* Footer */
footer {
  background-color: #1c1c30;
  color: #cccccc;
  text-align: center;
  padding: 20px;
  margin-top: 20px;
}

/* Mobile Screen */
@media (max-width: 600px) {
```

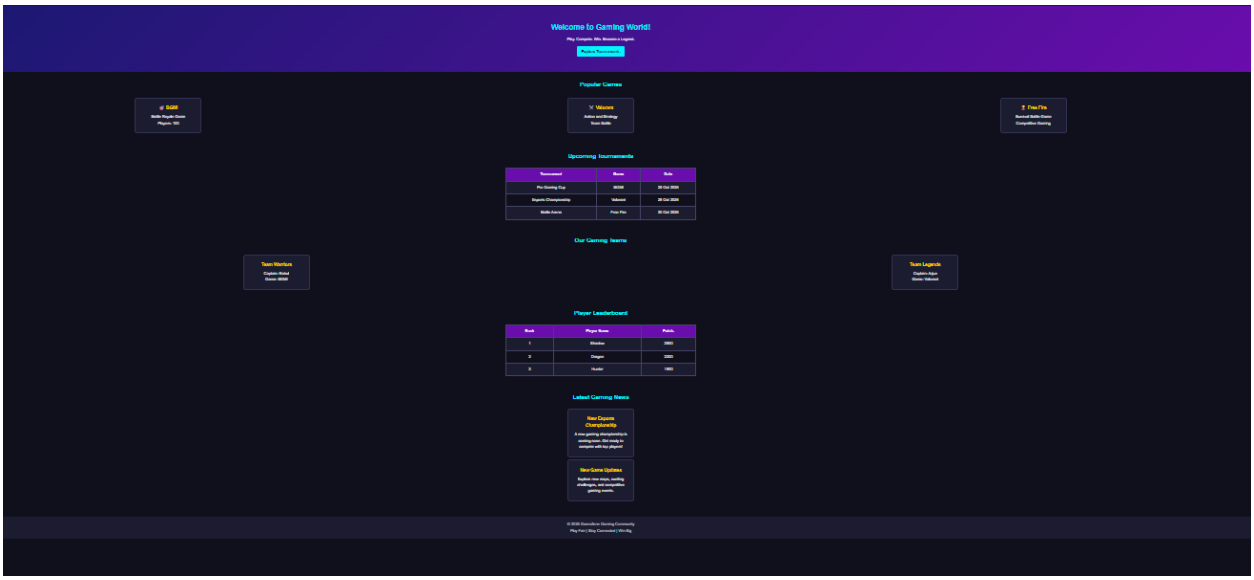

```
  nav a {
    margin: 5px;
    font-size: 14px;
  }

  .hero h2 {
    font-size: 25px;
  }

  table {
    width: 100%;
    font-size: 13px;
  }

  th, td {
    padding: 8px;
  }
}
```

6. OUTPUT SCREENSHOT

7. EXPLANATION

HTML is used to create the structure of the gaming website.

CSS is used to style the website with colors, fonts, backgrounds, spacing, and layouts.

The header displays the website name and navigation links. The games section provides information about popular games. The tournaments section displays gaming competitions and events. The community section gives information about gamers and teams.

The website output is displayed in Google Chrome.

8. CONCLUSION

This project helped me understand the basics of HTML and CSS. I learned how to create and style a gaming website and display gaming community information in a user-friendly way.
